

Healthcare solutions

Organize

TV/monitor wall mounts

- Save space in waiting rooms, nursing stations, treatment areas and patient rooms by mounting flat-screen TVs and monitors on a wall.
- Fixed, tilt and swivel motion adjustments provide optimal viewing flexibility and ergonomics.

Wall-mount rack enclosures

- Organize and secure IT equipment in locations with limited floor space.

Mobile workstations

- Easily roll printers, laptops and other workstation essentials from one room to another.
- Height-adjustable desktop accommodates different users and both sitting and standing positions.

Power and protect

Medical-grade UPS systems

- Provide a continuous flow of power to critical systems. A built-in isolation transformer provides full isolation for patient safety.

Medical-grade surge protectors

- Protect equipment against damaging spikes and surges.
- Models are available for patient-care areas.

Medical-grade power strips

- Distribute power to movable plug-connected components mounted to IV poles, mobile carts, crash carts and mobile medical workstations.

Mobile power retrofit kits

- Support UL 60601-1 compliance for connected mobile equipment in healthcare facilities, both inside and outside patient-care areas.

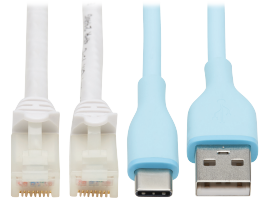

UV charging carts

- Store, charge and sanitize tablets or laptops. UVC light technology helps disinfect devices without heat or chemicals.

Connect

Antibacterial cables

- Safe-IT Ethernet, USB, video and power cables have antibacterial properties to promote a healthier environment for patients and staff.

Medical-grade power cords and extension cords

- Green dots assure users of hospital-grade plugs and receptacles.
- Antibacterial properties help inhibit the growth of bacteria such as staph and E. coli.

Wireless access point enclosures

- Protect an indoor router/modem or Wi-Fi access point by installing it inside an enclosure made of impact-resistant UL 94 V-0 Classified ABS plastic.

Powering Business Worldwide

Healthcare solutions

Eaton offers a comprehensive suite of power solutions and services tailored to the specific needs of healthcare settings. From maintaining power for medical devices to safeguarding the network infrastructure that stores vital patient information, our team of experts is here to support you.

Save time

- Improve the efficiency of the devices that power and protect your operations so staff can spend more time focused on patient care and less time managing the network and other systems.

Save money

- Our broad selection of products designed to meet the unique needs of healthcare environments assures you get the right solution for the job the first time and every time.

Reduce risk

- Eaton's solutions for healthcare include models compliant with UL standards for safe use inside and outside of patient care areas.

Customers agree: Eaton's quality and value are second to none!

Can't go wrong with Tripp Lite series

"I am working to update our employees' CPR training. Using new state-of-the-art mannequins linked to iPads and needed a quality hospital-grade power strip to keep them powered. Can't go wrong with Eaton's Tripp Lite series. I've used them for years."

Never have any issues, they just work with us

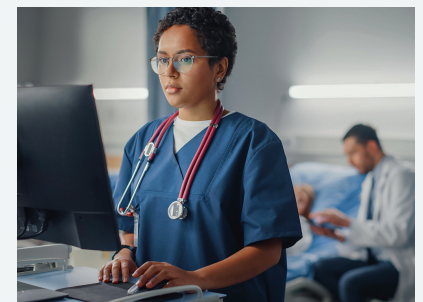

"There are so many things you experience working with different companies that make you just want to pull your hair out. Yet with Eaton, I never feel that way. We never have any issues, they just work with us."

Kathy Abiri, Facility Administrator
Bayside Endoscopy, Providence, RI

Loads remained safe during storm

"We used to have constant power failures...now, we even had one thunderstorm that caused power in the entire building to fail, but all our loads remained safe on the Eaton UPS."
