

The background of the page is a blue-tinted image showing various electronic components, including a white plastic component with a grid of holes, several white bags, and other parts. The Tyco Electronics logo is in the top left corner, with the word 'tyco' in a bold, lowercase, sans-serif font, and 'Electronics' in a smaller, italicized, lowercase, sans-serif font below it, separated by a horizontal line.

Component

Tyco Electronics has an industry focused sales and product development team dedicated to helping advance your products and designs for your market. Tyco Electronics offers a broad portfolio of products from connectors, switches, relays, contactors and transformers to wire and cable, sensors and cable assemblies. Our early involvement programs involve a systems approach that helps to provide component compatibility and speeds your development cycles. With an extensive global manufacturing footprint and product reach, Tyco Electronics provides an impressive list of products and capabilities to solve your needs for today and tomorrow....with a lot more than just connectors.

Interconnects

Tyco Electronics offers an almost endless range of electrical and electronic interconnection products. Our expanding capabilities include new copper and fiber optic connectors designed to meet industries' demands for higher signal speeds and high-density packaging. We strive to provide you with the right connector solution, whether it is a simple wire terminal or a highly sophisticated connector for your next generation product.

Switches

Solutions

With a broad array of relays and contactors, Tyco Electronics offers components for switching currents from dry circuit to more than 1,000 amps, voltages up to 70kV and frequencies up to 6 GHz. A wide range of contact configurations, enclosure types and mounting styles are offered. These robust models are designed to withstand the rigors of high shock, vibration and acceleration.

Relays, Circuit Breakers & Transformers

Components for your next generation product

Relays, Circuit Breakers & Transformers

General purpose and high performance relays and contactors. Control, timing, sensing, high voltage and protective types. Thermal and magnetic circuit breakers, transformers, power distribution panels and custom solenoids.

Switches

DIP, slide, toggle, pushbutton, rocker, pushwheel, industrial control, and surface mount switches. Power tool variable speed and trigger switches.

Interconnects

I/O, PC board, high-speed, pin & socket, power, heavy duty, microminiature, nanominiature, RF coax, and fiber optic connectors. Terminals & splices. Cable assemblies. Connectors. IC sockets. Heat sinks and fans for computer chips.

EMI/RFI Filters

EMI/RFI power line filters, power entry modules, and filtered modular jacks for AC and DC. General purpose, medical and high performance filters with optional voltage selection, fuse, switch, and circuit breaker.

Identification & Labeling

Wire and cable identification, computer-printable industrial labels, computer-printable cards, pre-printed labels, laser-engraved markers, and barcode printing/ data management.

Terminal Blocks

Eurostyle, barrier strips, card edge, interface modules, europa and NEMA terminal blocks.

Wire & Cable, Harnessing & Protection

Heat-shrinkable tubing and molded parts. Adapters, adhesives, and harness assemblies. High-performance insulated wires, coaxial and DataBus cables, power cables, electronics wire, and multicore cables. Serial communication, video, medical, industrial, and flat ribbon cables.

Value-Added Assemblies

Raychem Integrated Harness Assemblies (RIHA), MIL-STD-1553B databus Harness Assemblies, HarnWare Harnessing Design Software, Sealed Harness Systems, Wire Integration Units. Engineered Component Packaging. PCB, Micro-miniature, High Speed Copper & Fiber Optic Assemblies.

Identification & Labeling

Tyco Electronics provides world-class, end-to-end identification solutions such as Unique Identification (UID), RFID smart label solutions and cable identification and a full range of printing and engraving systems. Our knowledge of material science can help to develop customized solutions for demanding environments.

Harnessing & Protection

Raychem products protect electrical and mechanical components in many types of environments – from mild to harsh. We offer a broad selection of wire, tubing and molded parts made from a variety of materials.

You'll find many useful applications and plenty of product information on our website

Product News

- The latest information on new developments from various Tyco Electronics brands.

E-Mail Newsletter

- Product news delivered regularly to your inbox.

Products

- Discover information on our vast array of products ranging from Connectors to Wire & Cable.

Industries

- Use our industry pages to quickly find the right product for your application.

Customer Service and Support

- Find contact numbers for Customer Service and Product Information Help Desks.

Value-Added Assemblies

Some examples of value-added cable assemblies include: Power Distribution Assemblies – Primary and Secondary; Backplanes and I/O Panels; Advanced Optical Modules; Rugged Optics; Nano Assemblies; RF Modules; Contactor and Relay Assemblies; Flex Cable Assemblies and complex Harnessing.
