DURACELL® PROCELL® The Efficient Power Choice

- Procell Batteries are engineered for intermittent use, so the battery is not discharging energy when the device is off, providing longer life and increased productivity.
- Increased battery life = longer service life and less man hours replacing batteries – lowering your operational costs.
- Less maintenance = less downtime in your facility, increasing efficiency throughout your location.
- 7 year shelf life guaranteed (each battery is individually date coded to ensure freshness). Contains no added mercury.
- Lasts up to 10x longer than Super Heavy Duty Batteries.
- Performance Guarantee – All of our batteries are guaranteed against defects in material and workmanship. If a defect in a Duracell battery damages a device, we will repair or replace the device.
